## **Technical data sheet**

## **BauderTHERMOFOL** stainless steel rainwater outlets

V4 13.05.2024

Product description	A high per	formance stainless s	teel rainwater outlet with factory installed PVC	
	membrane flange. Supplied with an O-ring and a wire ball leaf grill. Supplied with either a light grey or mid grey coloured PVC membrane flange.			
Application fields	Bauder outlets are sized to show the internal diameter of the spigot. For information on non-standard sizes and refurbishment applications, please contact Bauder Technical Department.			
Article Number	GB14110075 (DN70mm light grey) GB14110110 (DN100mm light grey)   GB14110160 (DN150mm light grey) GB14120075 (DN70mm mid grey)   GB14120110 (DN100mm mid grey) GB14120160 (DN150mm mid grey)			
Characteristic		Unit	Value	
Stainless steel base plate		mm	230 x 230	
PVC membrane flange		mm	330 x 330	
PVC membrane flange thickness		mm	1.5	
Stainless steel spigot length		mm	400	
Thermofol stainless steel outlet DN 70 mm		mm	To suit 75mm rainwater pipe	
Thermofol stainless steel outlet DN 100 mm		mm	To suit 110mm rainwater pipe	
Thermofol stainless steel outlet DN 150 mm		mm	To suit 160mm rainwater pipe	
Flow Rate		Unit	Value	
Thermofol stainless steel outlet DN70 mm		litres/sec	2.39*	
Thermofol stainless steel outlet DN100 mm		litres/sec	4.45*	
Thermofol stainless steel outlet DN150 mm		litres/sec	6.76*	
*Flow rate performance data using a 35mm h	ead of wate	r (including leaf grille	e), based upon requirements of BS EN 12056:3:2000.	
torage guidance	The product should be stored dry, protected against weathering, and must not be exposed to temperatures exceeding 35°C. The products must not be exposed to a direct naked flame or other ignition sources, or to solvents or other chemicals. Ensure the product(s) are clear of buildings and any other storage areas. Where there are storage containers on site, these may be suitable for storing products.			
Packaging material	Typically supplied in a cardboard box (<300g readily recyclable).			
Handling/PPE	All persons using the product should be fully aware of the manual handling methods as roofing materials are heavy and can cause serious injury. When using the product, installers should be provided with, and wear, suitable personal protective equipment.

## Installation Guidance

- Ensure all pre-installation criteria have been followed.
- Push the membrane flange down onto the main flat area to ensure a flush fit.
- If the outlet is sitting proud, consider reducing the insulation slightly to ensure water flow is not inhibited in this region. •
- Temporarily fold back to reveal pre-drilled holes, fasten the outlet into position through the insulation into the deck using suitable fixings. ٠
- Un-fold/return the membrane flange flat to the system. •
- Weld the membrane flange to the main flat area, starting at the centre and work outwards until the entire flange is welded to the Thermofol field sheet. •

Safety Data Sheets are designed to provide the necessary information to recipients of substances and mixtures in the EU & UK. This product is classed as an article; therefore, this product does not have a requirement for a Safety Data Sheet.
