

GENERAL PRODUCT INFORMATION SHEET

Bauder FSM1100

Issued 20th October 2016

Product Name

Bauder FSM600

Material

Polyester and polypropylene fibre mix

Information on supplier

Bauder Limited
70 Landseer Road
Ipswich
Suffolk
IP3 0DH

Telephone:- 01473 257671

Email:- technical@bauder.co.uk

Hazard Identification

Low Hazard. Material can form flammable mixtures or can burn only on heating to high temperatures.

First Aid Measures

Inhalation:-

In case of adverse exposure to vapours and/or aerosols formed at elevated temperatures, immediately remove affected person from exposure. Seek medical attention immediately.

Skin Contact:-

For hot product, immediately immerse in or flush the affected area with large amounts of cold water. Cover with clean dressing and seek immediate medical attention. Do not attempt to remove material from skin or to remove contaminated clothing as the damaged flesh can easily be torn.

Fire Fighting Measures

Fire Fighting Procedures:-

Extinguish fires by cooling with water spray.

Special Fire Precautions:-

Respiratory protection should be worn by fire fighting personnel.

Hazardous Combustion Products:-

Oxygen lean conditions may produce carbon monoxide and irritating smoke.

Handling and Storage

Use mechanical lifting equipment or team lifting systems.

Do not handle or store near an open flame or sources of heat.

It is recommended that under normal circumstances rolls should be stored:-

- 1/ Singly at floor level or
- 2/ In suitable storage racks or
- 3/ In cannonball fashion.

If storing cannonball fashion, care must be taken to ensure that the outer rolls are suitably choked to prevent any movement.

Exposure Controls/Personal Protection**Personal Protection:-**

Wear suitable gloves.

Toxicological Information**Inhalation:-**

No hazard in normal industrial use. Vapours or aerosols which may be formed at elevated temperatures may be irritating to eyes and respiratory tract.

Skin Contact:-

No hazard in normal industrial use. Exposure to hot materials will cause thermal burns.

Disposal

After consulting disposal company and relevant authority, may be disposed of with domestic refuse or building rubble subject to observing the necessary technical instructions.
