

## **Declaration of Performance**

## **Declaration of performance number**

140440065B

| 1. |  | BauderGLAS Tapered Roof T3+  |  |
|----|--|--|--|
|    | Unique identification code of the product-type   | DOP n° 140440065B 2022/01/01-ThIB-CG-EN13167-PL(P)1,5-DS(70,90)-CS(Y)500-BS450-TR150-WS-WL(P)-Mu                                   |  |
| 2. | Identification of the construction product as required under Art. 11(4)                      | Cellular glass – Tapered Roof T3+  |  |
| 3. | Intended use or uses of the construction product   | Thermal insulation for buildings   |  |
| 4. | Name and contact address of the manufacturer as required pursuant Art. 11(5)                 | Bauder Limited<br>70 Landseer Road<br>Ipswich<br>IP3 00H   |  |
| 5. | Name of the authorised representative whose mandate covers the tasks specified in Art. 12(2) | none   |  |
| 6. | System or systems AVCP as set out in Annex V   | AVCP system 3  |  |
|    | Harmonised standard  | EN 13167   |  |
| 7. | Notified body  | Thermal conductivity - BBRI (No. 1136) & FIW (No. 751) / Fire reaction - WFGRT (No. 1173) / Compressive strength - BBRI (No. 1136) |  |

| Table 1  |   |  |                         |
|--|---|--|-------------------------|
| Essential characteristics  |   |  |                         |
|  | Thermal resistance (RD-value)   | RD-value see table 2   |                         |
| Thermal resistance   | Thermal conductivity (λD-value)   | λD ≤ 0.036 W/(m•K)   |                         |
|  | Thickness   | from 50 to 200 mm  |                         |
| Reaction to fire Euroclass characteristics   | Reaction to fire  | Euroclass E  |                         |
|  | Thermal resistance (RD-value)   | RD-value see table 2   |                         |
|  | Thermal conductivity (λD-value)   | λD ≤ 0.036 W/(m•K)   |                         |
| Durability of thermal resistance against heat, weathering, ageing/degradation  | Thermal conductivity of cellular glass pro Durability characteristics change with time, experience has sh structure to be stable. |  |                         |
|  | Dimensional Stability   | DS (70/90)   | m                       |
| Durability of reaction to fire against heat, weathering, ageing/degradation  | Durability characteristics  | The fire performance of cellular glass does not deteriorate with time. | EN 13167:2012 + A1:2015 |
| ageing/ degradation  | Dimensional Stability   | DS (70/90)   |                         |
| Compressive strength   | Compressive strength  | CS ≥ 500 kPa   | 12.                     |
| compressive strength   | Point load  | PL ≤ 1,5 mm  |                         |
|  | Bending Strength  | BS ≥ 400 kPa   | :20                     |
| Tensile/flexural strength  | Tensile strength parallel to faces  | NPD  | 15                      |
| rensile, nextra strength   | Tensile strength perpendicular to faces   | TR ≥ 150 kPa   |                         |
| Durability of compressive strength against aging degradation   | Compressive creep   | CC(1,5/1/50)225  |                         |
| MACO CONTRACTOR OF THE CONTRAC | Water absorption (short)  | WS   |                         |
| Water permeability   | Water absorption (long)   | WL(P)  |                         |
| Water vapour permeability  | Water vapour resistance   | ∞ infinite   |                         |
| Acoustic absorption index  | Sound absorption  | AP1→NPD  |                         |
| Release of dangerous substances to the indoor environment  | Release of dangerous substances   | NPD  |                         |
| Continuous glowing combustion  | Continuous glowing combustion   | no glowing combustion  |                         |

Table 2

| Thickness (mm) | Thermal resistance (m <sup>z</sup> K / W) | Thickness (mm) | Thermal resistance (m <sup>2</sup> K / W) |
|----------------|---|----------------|---|
| 50             | 1,35                                      | 135            | 3,75                                      |
| 55             | 1,50                                      | 140            | 3,85                                      |
| 60             | 1,65                                      | 145            | 4,00                                      |
| 65             | 1,80                                      | 150            | 4,15                                      |
| 70             | 1,90                                      | 155            | 4,30                                      |
| 75             | 2,05                                      | 160            | 4,40                                      |
| 80             | 2,20                                      | 165            | 4,55                                      |
| 85             | 2,35                                      | 170            | 4,70                                      |
| 90             | 2,50                                      | 175            | 4,85                                      |
| 95             | 2,60                                      | 180            | 5,00                                      |
| 100            | 2,75                                      | 185            | 5,10                                      |
| 105            | 2,90                                      | 190            | 5,25                                      |
| 110            | 3,05                                      | 195            | 5,40                                      |
| 115            | 3,15                                      | 200            | 5,55                                      |
| 120            | 3,30                                      |                |   |
| 125            | 3,45                                      |                |   |
| 130            | 3,60                                      |                |   |

This declaration of performance is issued under the sole responsibility of the manufacturer identified in point 4.

On behalf of the manufacturer by: Richard Clennell - Bituminous & Insulation Product Manager Date of Issue: 18th June 2024
